RECYCLABLE DEBRIS - COMMUNITY CLEANUP ART SHOW

SPONSORED BY:

GUIDELINES FOR HANGING AND/OR 3 D ART SHOW

The challenge is to gather friends, neighbors, cousins, families and go out into our community, parks, hiking trails and clean up the debris. Have fun with this and let's show our neighbors and especially the visitors to this beautiful area that we are proud and care about the earth. When you start looking, you will be shocked by the amount of garbage and debris that is left by people. It is suggested that you carry two bags with you, one bag will be used for items that are recyclable and can be used in your art project, the other bag for items that are non-bio-degradable, hazardous, chemicals, or other materials that would/could cause health issues. We strongly suggest using gloves during your collection. Be creative in your art pieces, don't just paste the "stuff" on a canvas/board and call it "trash art." We want to see something we can recognize, something creative and fun.
